Health Care Financing Program Statistics

The Health Care Financing Administration was established to combine health financing and quality assurance programs into a single agency. HCFA is responsible for the Medicare program, Federal participation in the Medicaid program, the Professional Standards Review Organization program, and a variety of other health care quality assurance programs.

The mission of the Health Care Financing Administration is to promote the timely delivery of appropriate, quality health care to its beneficiaries—approximately 47 million of the nation's aged, disabled, and poor. The Agency must also ensure that program beneficiaries are aware of the services for which they are eligible, that those services are accessible and of high quality, and that Agency policies and actions promote efficiency and quality within the total health care delivery system.

HCFA's Office of Research, Demonstrations, and Statistics (ORDS) conducts studies and projects that demonstrate and evaluate optional reimbursement, coverage, eligibility, and management alternatives to the present Federal programs. ORDS also assesses the impact of HCFA programs on health care costs, program expenditures, beneficiary access to services, health care providers, and the health care industry. In addition, ORDS monitors national health care expenditures and prices and provides actuarial analyses on the costs of current HCFA programs as well as the impact of possible legislative or administrative changes in the programs.

Medicaid ***Program Statistics*** are published periodically by the Health Care Financing Administration's Office of Research, Demonstrations, and Statistics. They include six specific kinds of publications: Preliminary National Monthly Medicaid Statistics, National Monthly Medicaid Statistics, Preliminary National Annual Medicaid Statistics, National Annual Medicaid Statistics, National Quarterly Medicaid Sterilization Statistics and National Quarterly Abortion Statistics.

The Monthly Statistical Report on Medical Care is submitted to HCFA by each Medicaid jurisdiction at the end of each month and reports data for the previous month. In an effort to make these data available in a timely manner, the reports are tabulated and published as Preliminary National Monthly Medicaid Statistics. Final edited and corrected monthly data are published as National Monthly Medicaid Statistics. To make annual data available as soon as possible, the 12 monthly reports for a fiscal year are tabulated and published as Preliminary National Annual Medicaid Statistics. The annual reports are then compiled and a more detailed publication, National Annual Medicaid Statistics, is published.

Two additional quarterly reports on sterilization are submitted by the States. These data are published quarterly as National Quarterly Medicaid Sterilization and National Quarterly Medicaid Abortion Statistics.

Overview

This publication is a monthly report containing data on medical assistance payments and recipients of services under Title XIX of the Social Security Act (Medicaid). Medicaid is an assistance program designed to provide medical assistance to specified groups of needy individuals. For statistical purposes, these needy individuals are classified into two main groups according to their maintenance assistance status: (1) those who receive cash assistance for their basic necessities under public assistance programs such as Aid to Families With Dependent Children and Supplemental Security income; and (2) those who do not receive cash assistance even though some may, in fact, be eligible. There are four basic groups eligible for medical assistance: those who are (1) age 65 and over; (2) blind; (3) permanently and totally disabled; and (4) members of families with dependent children. In addition, some States have exercised the option of including other needy persons who do not fall into any of the above categories. Such recipients are classified as "Other Title XIX" recipients in the accompanying tables. Also, "essential persons" (usually spouses) may also be eligible for medical care. For cash assistance recipients, these persons are usually classified according to the same eligibility factors as the recipient spouse.

Amounts of payments by type of service and basis of eligibility do not include premiums paid for supplementary medical insurance under the Medicare program.

Sources of the Data

Information is compiled and reported by each State and/or jurisdictional agency administering an approved Title XIX program on Federal Report Form SRS-NCSS-120: Monthly Statistical Report on Medical Care. Currently there are 54 such programs in 49 States, the District of Columbia, Guam, Puerto Rico, and the Virgin Islands. Arizona has not initiated a Title XIX program and Massachusetts has a separate State agency for blind recipients.

Information presented include medical payments by form of payment, payments to medical vendors by type of service, number of recipients in whose behalf medical vendor payments were made, and data related to screening services under the Early and Periodic Screening, Diagnosis and Treatment Program.

Generally, payments are made out of Medicaid funds to vendors (providers) of medical services, directly or through a fiscal agent as the direct results of claims filed by the provider after services are rendered. Data presented in this publication are generated as an adjunct to the Medicaid claims processing and payment operation. Thus, information is based on bills paid and not services rendered during the month. Consequently, the data provided through this process are not professed to represent a true picture of the incidence of illness among Medicaid eligibles and are subject to fluctuations unrelated to the provision of medical care. Monthly data are collected and presented to meet pressing current demands for minimum information on medical care financed under Title XIX. However, States are required to provide more significant and detailed annual data on the numbers of persons receiving medical services, the number of units of such services, and the corresponding amounts of payments.

Except for payments, data related to screening services are not necessarily generated through the claims payment process. Numbers of individuals screened are usually based on services actually rendered during the report month. As a result payments reported for screening services may be unrelated to persons receiving such services.

Highlights

- Payments for November 1978 increased $33 million to a total of $1.691 billion from $1.657 billion in October 1978.
- Average monthly payments for the 12 month period ending in November 1978 equaled $1.594 billion, an increase of 1.2 percent from the 12 month period ending October 1978.
- Approximately 9.1 million recipients had vendor payments totaling $1.645 billion made in their behalf in November.
- There were concurrently 225,457 Medicaid eligibles enrolled in health maintenance organizations whose premiums totaling $10.8 million were paid out of Title XIX funds.

Data Trends

Recipients of Services

More than half (54.7 percent) of the recipients for whom vendor payments were made were members of families with dependent children. Children under 21 in families and other Title XIX recipients under 21 accounted for 37.1 percent of recipients. Recipients eligible on the basis of age 65 and over accounted for 22.2 percent of the caseload. Recipients who also received money payments outnumbered non-money payment recipients by more than three to one. Among members of families with dependent children under 21, nine out of ten Medicaid recipients also received AFDC money payments.

Table A

Percent Distribution of Recipients by Basis of Eligibility and Money Payment Status, November 1978

Basis of Eligibility	Total	Money Payment Status: Money Payment Authorized	Money Payment Status: Money Payment Not Authorized
		Percent	
Total	100.0	77.7	22.3
Aged 65 and over	22.2	13.7	8.5
Blindness	0.5	0.4	0.1
Permanently and totally disabled	16.8	13.2	3.6
Children under 21 in families	34.0	31.3	2.7
Adults in families with dependent children	20.7	18.9	1.8
Other Title XIX under 21	3.1	—	3.1
Other Title XIX age 21-64	2.7	—	2.7

Table B

Percent Distribution of Medical Vendor Payments by Basis of Eligibility and Money Payment Status, November 1978

Basis of Eligibility	Total	Money Payment Status: Money Payment Authorized	Money Payment Status: Money Payment Not Authorized
		Percent	
Total	100.0	51.9	48.1
Aged 65 and over	37.4	10.3	27.1
Blindness	0.6	0.4	0.2
Permanently and totally disabled	29.6	17.2	12.4
Children under 21 in families	13.4	11.4	2.0
Adults in families with dependent children	13.9	12.2	1.7
Other Title XIX under 21	2.8	—	2.8
Other Title XIX age 21-64	2.4	—	2.4

Payment for Services

As shown in Table B, the distribution of payments differs significantly from the caseload distribution. Payments for persons not receiving maintenance assistance are nearly equal to those for money payment recipients. The single largest proportion of payments (27.1 percent) are made on behalf of recipients aged 65 and older who are not also recipients of maintenance assistance. Such recipients represent only 8.5 percent of the caseload. Payments for these recipients, to a large extent, are made to medical inpatient facilities which represent the more expensive types of medical services. Only 16.2 percent (about half of the corresponding recipient proportion) of payments are made on behalf of children under 21 years of age. The second largest proportion of payments (29.6 percent) are made on behalf of the permanently and totally disabled.

Inpatient services comprised 73.5 percent of medical vendor payments in November: hospitals (31.4 percent), skilled nursing facilities (17.0 percent), intermediate care facilities (25.1 percent). The increase in monthly payments for the 12 month period ending in November was 1.4 percent for inpatient services. Outpatient and other professional services registered an increase of 0.7 percent. Among outpatient and other professional services, physicians' services and prescribed drugs accounted for 7.9 and 5.9 percent respectively, of total vendor payments.

Screening Services

During November, 171,972 children were reported as screened under the Early and Periodic Screening, Diagnosis and Treatment Program. About 50 percent of the children screened were six years of age or older. Fifty four percent of the children screened had referrable conditions uncovered and 91 percent with such conditions uncovered were referred for diagnosis and treatment.

Medical Assistance Financial through State (General Assistance) Program

During the month of November 1978, 20 States reported a total of $83,906,251 in payments for medical assistance which were not subject to Federal Financial Participation.

Alaska	$ 654,951	Maryland[1]	$ 5,159,315	Oregon	$650,932
California	44,727,269	Massachusetts	258,008	Rhode Island	372,810
Colorado	5,286	Michigan	306,807	South Dakota	82,754
Hawaii[1]	1,330,759	Montana	319,363	Utah[1]	24,445
Illinois	7,137,059	New York[1]	22,330,064	West Virginia	20,405
Louisiana	62,656	North Carolina	142,288	Wisconsin	301,840
Maine	15,940	North Dakota	3,300		

[1] States are asked to report medical payments made from general assistance funds separately from Title XIX. Thus, the data are excluded from the detailed tabulations. However, New York reports combined data and Hawaii, Maryland and Utah included the information in the Title XIX statistics prior to July 1977.

Clinic services—Services furnished to outpatients by a facility which is not part of a hospital, but which is organized and operated to provide services to outpatients.

Dental services—Services, including ancillary services, provided by a dentist in the practice of his profession.

Family planning services—Any medically approved means, including diagnosis, treatment, drugs, supplies, and devices, and related counseling which are furnished or prescribed by or under the supervision of a physician for individuals of child-bearing age for purposes of enabling such individual freely to determine the number and spacing of their children.

Home health services—Services furnished a patient in his home, including: intermittent or part-time nursing service provided by a home health agency, or by a registered professional nurse or licensed practical nurse; medical supplies, equipment, and appliances for use in the home; and services of a home health aide.

Inpatient hospital services—All items of care furnished to an inpatient and covered by the hospital's bills.

General hospital—A hospital maintained primarily for inpatient care of acute illness or injury and for obstetrics or tuberculosis.

Mental hospital—A hospital primarily engaged in providing psychiatric services for the diagnosis and treatment of mentally ill persons.

Intermediate care facility services—All services provided by an institution furnishing health-related care and services to individuals who do not require the degree or care provided by hospitals or skilled nursing facilities as defined under Title XIX.

Intermediate care facility services—All services provided by an institution furnishing health-related care and services to individuals who do not require the degree or care provided by hospitals or skilled nursing facilities as defined under Title XIX.

Laboratory and radiological services—Professional and technical laboratory and radiological services provided in an office of similar facility (other than a hospital outpatient department or clinic) of by a qualified laboratory.

Other care—Any medical or remedial care not covered by the above.

Other practitioners' services—Services of licensed practitioners other than physicians and dentists.

Outpatient hospital services—Services furnished to outpatients by a hospital.

Physicians' services—Services provided by an individual licensed under State law to practice medicine or osteopathy. Services covered by hospital bills are not included.

Prescribed drugs—Drugs dispensed by a licensed pharmacist on the prescription of a practitioner licensed by law to administer such drugs, and drugs dispensed by a licensed practitioner to his own patients. This item does not include a practitioner's drug charges that are not separable from his other charges, or drugs covered by a hospital's bill.

Skilled nursing facility services—All services furnished to inpatients of, and billed for by, a licensed or formally approved nursing facility that meets standards required under a Title XIX program.

Annotations

1. The following definitions apply to symbols appearing in the detailed tables:
   — indicates no data reported.
   Z indicates that the percent was less than .05.

2. Arizona has no Title XIX program and is excluded from the tabulations.

3. Oklahoma discontinued its agency pooled fund beginning July 1976.

4. Florida did not report recipients or payments by basis of eligibility of recipient and is excluded from all applicable tables. Data submitted for the month were estimated by the State. Kentucky reported data for recipients who were age 65 and over, blind, or disabled, only. All payments by basis of eligibility of recipients were reported by the State.

5. Colorado reported recipients and payments by basis of eligibility only.

6. States do not always report premium or per capita payments into the SSA System for aged and disabled recipients separately. Payments reported under the aged category include payments for the disabled. There is variance from month to month in States reporting SSA and HMO premium payments because in some cases, such payments may be made less frequently than monthly (Table 1).

7. New Hampshire payments for medical transportation and Colorado payments for dental services are reflected in Tables 1 and 5 only.

8. In addition to Colorado and Florida; Massachusetts, Nevada, and Pennsylvania are excluded from Tables 10-13 because children and adults in families were not reported separately. Connecticut, Illinois, and West Virginia were able to report children and adults separately but were unable to differentiate medical vendor payments between adults and children in families. These States are excluded from the total percentage computation in Table 11. Colorado and Pennsylvania did not differentiate other Title XIX recipients by age and are excluded from Table 14.

9. In some States, two or more types of medical services may be grouped together under one class, such as South Carolina where skilled nursing facility services include payments to State mental institutions.

10. For some States, differences in vendor payment amounts between Table 3 and Table 5 are due to inclusion of retroactive adjustments which can be reported by type of service (Table 5) but which are not applicable to the recipients in Tables 2, 4, and 6-9. For the current month, however, expenditures for Michigan exclude accounting adjustments of-$24,542.

11. States omitted from tables either did not report on screening services for December 1978 or there were no individuals screened during the month. Massachusetts reported 11,234 persons screened but no other information.

12. California reported 103,985 and Missouri reported 699 individuals receiving comprehensive physical examinations in addition to the screening data.

13. Maryland reported 131 individuals screened in HMO's but such cases were not distributed by age,also 669 individuals were screened by Johns Hopkins Hospital comprehensive child care program for whom problems uncovered were incomplete. In addition, there were 198 individuals screened at Baltimore City Hospital's C & Y Clinics.

14. Included in the total for Minnesota are 16 newly registered recipients in MIC screening program and 55 recipients in C and Y screening program. Rhode Island has 992 individuals including 105 newborns for whom there is no further enumeration.

15. Indiana and Ohio reported incompletely, with respect to referral status of children screened.

16. Delaware, Florida, Louisiana, Maryland, New Mexico, North Carolina, Ohio, Pennsylvania, and Washington reported incompletely with respect to problems uncovered during screening. Alaska, California, Minnesota, Vermont, and Virginia reported 394; 8,369; 284; 192 and 1,850, respectively, for individuals whose immunizations were inadequate. These individuals were excluded from the count of persons with other problems uncovered during screening.

17. Texas data do not include 7,392 dental screenings which are performed separately.

18. Payments for screening services were not reported by Massachusetts and Puerto Rico. Payments for Michigan, New York, and Pennsylvania were not reported separately by age.

19. New Hampshire reported 11 equivalent screenings and Wisconsin reported 32 equivalent screenings billed through other programs.
